

About me

I am **reliable**, **honest** and **committed**. I have a great **curiosity** and **learning capacity**, I am at all times trying to understand the way things work around me. In relation to work, I am **proactive** and I have **wide experience working in teams**, many times fulfilling the **communicator** and **mediator** roles. I am **capable of effectively project in the short and long terms** and also of thinking **quick solutions** or take in consideration when a **broader process** is required. Finally, I also **can understand business logics** and **quality standards, abstract solutions** and write clean, scalable, modular and reusable code following **good practices**.

Skills

HTML 5

CSS 3 - CSS Modules

Material UI - Bootstrap

Tailwind - Styled Components

Javascript - Typescript

React - Next

Redux - Redux Toolkit

Node - Express

MongoDB - Mongoose

PostgreSQL - MySQL - Sequelize

AWS - EC2 - S3 - Lambda

CloudWatch - SNS - SDK

Git - GitHub - Jira

Postman

Andrés Leonel Siri

Full Stack Developer

Developing experience

- [StoryDots](#) July 2022 – Present
Full Stack developer position at Startup with multiple apps related to the same business logic. Varied work between FrontEnd and BackEnd using Typescript and, at front, mostly React or Vanilla JS otherwise, and many CSS frameworks (pure CSS, Bootstrap, Material-UI, CSS-modules, emotion, StyledComponents), and, at back, serverless solutions executed with AWS Lambdas using a MySQL database with the Sequelize ORM. Also, the work is at great measure around APIs consumption and embed apps, because of the joint work with TiendaNube, Shopify and VTEX.
